

Lemon Balm

HEALTH, BEAUTY & CONTEMPORARY PLANT MEDICINE

Would
you like
to feel
good
?

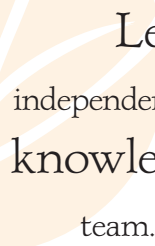

Lemon Balm is a
new shop and clinic at
76 Parkway, Camden –
stocking a selection of
the very best natural
and organic health,
beauty & skincare
products.

Our passion is
contemporary plant
medicine – using the
wonderful properties
of plants to enhance
health, beauty &
wellbeing.

Lemon Balm is wholly independent, with a friendly, helpful, knowledgeable and experienced team. Set up by Medical Herbalist Paula Grainger, we have a fully-stocked

Western Herbal Medicine Dispensary and luxurious & comfortable treatment rooms offering a wide range of complementary therapies – including *therapeutic massage, herbalism, acupuncture, reflexology, homeopathy, hypnotherapy, NLP, and rebalancing.*

Our products have been carefully chosen from independent suppliers growing and making their highest quality preparations themselves. We have chosen mostly UK-based suppliers, and taken care to stock only products which do good – we have nothing which harms people, animals or the world around us.

We can't list *all* our suppliers here, but they include Essential Care, a small Suffolk-based company run by a herbalist who wanted the adults and babies in her family to use skincare products which contain only organic ingredients...

Long Barn, specialist Lavender growers in Winchester – whose delicious preparations use only the most natural components...

Fushi's wonderful aromatherapeutic natural skin and haircare range – and Figs & Rouge, whose gorgeous packaging and scents prove that glamour can be natural *and* ethical...

So drop in... to meet us and satisfy your senses: see our unique products, taste our delicious herbalist-blended teas, smell our creams and potions, experience the power of touch with a full massage or taster session – and hear our staff's enthusiastic and knowledgeable answers to all your questions about finding the best natural care for you and your family...
